

DAILY
MINIBUS
COMFORT AND SAFETY

Polster – professional Iveco bodybuilder

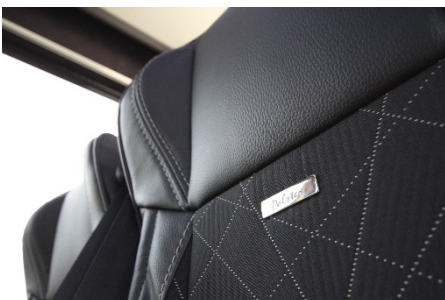

About us

The Polster company was founded in 1990. Our basic activity is the production of minibuses, among others, on the Iveco Daily chassis, whose we are a certified partner. We can ensure vehicles with full track homologations: Iveco 5,6t and 6,5t. We provide services at the highest level, we care about every detail in order to meet the requirements set by our customers and provide them with the greatest satisfaction from the purchased vehicle.

Why is it worthy for you to choose Polster?

- We will produce the car tailored perfectly to your needs;
- Our employees are professionals with many years of experience;
- We work with the most renowned suppliers;
- Our bodybuilds are covered by 24-month warranty;
- We focus on the highest quality - we have the TUV ISO 9001: 2015 certificate;
- Professionalism is our second name;
- We provide full after-sales and service care;
- We have many loyal customers who come back to us for more cars;
- We produce over one hundred cars a year - you can trust us 😊.

Iveco Daily 65C – tourist bus

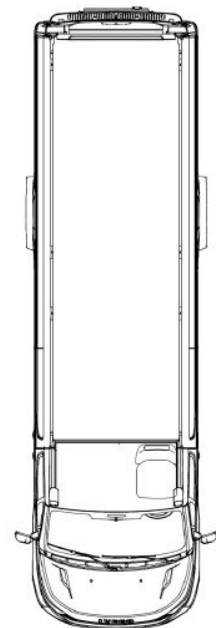

Selected bodywork parts

- Tourist seats that provide comfort and convenience during the journey;
- Dual-zone air conditioning with the capacity of 11 - 14 kW will provide relief even in the greatest heat;
- You can place the luggage in a deepened trunk - with a maximum capacity of up to 1500l!
- Rich audio-video equipment: a 19-inch monitor, USB sockets - for each passenger, a microphone with an amplifier, audio with DVD and MP3, navigation - a two-bay BLAUPUNKT San Diego 530;
- The camera and the reversing indicator will facilitate maneuvers;
- Four Vehtec convectors with up to 15 kW of power will heat passengers even in the deepest frost;
- Materials from leading manufacturers and upholstery at the highest level.

Possible configurations

Iveco Daily 50C – bus adapted for the disabled

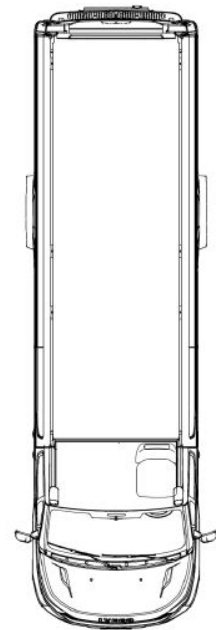

Selected bodywork parts

- Electrically retractable step will facilitate boarding to the people with limited mobility;
- The vehicle is adapted to anchor two wheelchairs;
- Without the use of specialized tools, thanks to the quick disassembly system - you can easily remove the last two rows of seats;
- Non-slip floor;
- External lift DHOLLANDIA with handrails and an automatic platform locking system - a modern solution that increases the comfort of traveling;
- Rear camera in the stop lamp is another advantage of this car;
- Full track homologation with one standing place.
